Product
A tight angle of the V1000 Slot System SS. Its simple yet effective construction makes it a popular product to specify on projects such as this one where they give privacy and sun control to every entrance to these modern apartments in Sydney. These V1000 Louvres are on the inner side of the complex and on the outer face there are hundreds of square metres of Vollay V7000 Aluminium Louvres all coexisting in harmony. Natural Anodised surface finish to AS1231-2000 at 22microns.
