P. 1300 VOLLAY - 1300 865 529
E. sales@vollay.com

Product
Its simple yet effective construction makes it a popular product to specify on projects such as this one where they give sun control to these elevated windows. Further, the club was having problems with vandals throw-ing stones at the upstairs windows and this installation has dramatically reduced the problem. Satin Black surface finish to AS3715-2002 at 60-80microns.
