Project

Private Resort.

Location

The Kimberley, WA.

Product

The V5000 Encapsulated Blade System (EBS-A) was specified for this rural installation in WA. A robust, reliable louvre system was required due to the isolated location. The flexibility of the system allowed the panels to be alternated to create an interesting patchwork effect requested by the client. Gloss white powder coat surface finish to AS3175-2002 at 60-80microns.
