Product
V5000 Bifolding Aluminium Shutters in Dark Cedar Wood Grain powder coat were installed both upstairs and downstairs in this beautiful Brisbane home to replace the timber shutters that had broken down within four years. Facing due west, the openings required a shutter that could withstand the harsh afternoon summer sun while allowing the sun to enter in winter. These quality shutters also increase the lux levels and make all rooms private when required. Dark Cedar powder coat surface finishing to AS3715-2002 at 60-80microns.
